MIRABELLE DOIRON

Skills

REACT, Git, HTML, CSS, HTML 5, JavaScript, Photoshop, Adobe Suite, Excel, PowerPoint, and UX design

Objective

I am a very dedicated UX developer passionate about creating intuitive digital experiences. I am constantly building a more robust background in user-centered design principles and front-end development.

Experience

UX Developer | Indeed | 07.2020 - Present
Create REACT snippets to create HTML/CSS emails for all products worldwide. While creating a strong code base for all users, I am implementing a new architecture for our homegrown CMS.

Email Developer/ Designer | AAA | 2017 - 2020
Design & code HTML emails using CSS, CSS3, HTML and HTML5 for all Marketing Products. Implement AB tests. Design and Code for ADA compliance. Strong working knowledge of Adobe Photoshop. Create best-practices standards and documentation for team to use. Manage workload to ensure assets are supplied on time.

Web Developer & Designer | Quantum | 2015 – 2016
Work with creative team to push boundaries on design. Assist in developing strategy and tactics for best email marketing programs. Provide recommendations to improve process and quality of emails. Manage and create HTML templates for use by the Marketing team. Oversee email processes from email setup, testing, QA, live previews and deployment.

Education

Computer Science | 2023-2024 | The Odin Project & Zero to Mastery
Currently taking a full stack JavaScript, Python Developer & Complete A.I. Machine learning classes.

Bachelor Web Design | 2012 | MATC
I graduated in December 2012 as the Valedictorian of my program. I Made the Honor List and the Dean's List.

Photography + Social Sciences | 2000 | College St-Jerome
General studies with emphasis on photography. Montreal.
